Urban Planning Meet Slated

Two Canyon governmental bodies will meet next week with Marvin Springer, urban planning consultant from Dallas, to discuss zoning in the city.

The city and zoning commissions agreed last week to meet with Springer to discuss zoning ordinances and changes for Canyon.

The meeting is slated Wednesday at 7 p.m. in the City Hall Annex.

The city commission had earlier discussed the possibility of rezoning an area from 2nd Avenue and 15th Street north to US Highway 60 from residential and industrial to commercial.

The zoning question was discussed by both groups after Art Roberts requested a change that would allow him to construct a welding shop in the area.

"I don't feel we can amend the ordinance we have now -- I don't think we have anything now," said Mayor Paul Lindsey.

The possibility of going west from US 60 to 11th Street and east to 19th Street with a commercial zone and an ordinance change that would classify certain businesses under restrictions was also given consideration.

"We're trying to get an industry," said Zoning Chairman Roland Black, "and any industry we might get would probably go into a commercial zone." Black is also Canyon Chamber of Commerce manager.

Egg Hunt Is Sunday

Thousands of "Easter eggs" will be available for a large community egg hunt by youngsters Sunday, according to the Canyon Junior Chamber of Commerce.

The annual hunt will be held at Conner Park beginning at 1:30 p.m.

Children will be divided into two age groups for the hunt with prizes being awarded to those finding the prize eggs. Age divisions will be 1-6 years and 7-12 years. All children through 12 years old are invited to participate.

Ryan Says Might Be Long Process

There was hope this week for a silver lining in the cloud hanging over Canyon Credit Union.

The credit union is in liquidation but the liquidating officer said there is a possibility that shareholders may have 100 cents on the dollar of their investments returned to them.

The liquidating officer is Lee Ryan, Dallas, a representative of the Texas Credit Union League. The league was designated by the Texas Department of Banking to handle the liquidation.

Bruce Gibson, credit union supervisor for the department of banking, said it is hoped that shareholders' money will be returned in full. This will take a long time and may not be entirely realized, he pointed out.

Even so, Gibson's statement brought some comfort to shareholders here early this week.

Bad loans were blamed for the necessity to liquidate Canyon Credit Union.

Ryan said the Canyon Credit Union has \$640,000 in loans on the book. Its liabilities include \$307,000 in shares and \$370,000 in notes payable.

TIC Seminar Attended By 22 Canyon People

More than 20 Canyon people Wednesday of last week heard Harry W. Clark outline the five most important factors in attracting industry to a community.

Clark, executive director of the Texas Industrial Commission, spoke at a seminar convened especially for Canyon.

The factors he outlined include (1) Community development, (2) Research and analysis, (3) Industrial sites and buildings, (4) Industrial financing and (5) Promotion and prospecting.

Clark emphasized that before a community can attract industry it must get ready for industry. He noted that competi-

tion among communities for industry is keen.

He said 15,000 communities prospect for 1,500 new plants annually.

"Getting industry requires

Not League Candidate Says Albers

John Albers, candidate for Canyon school board, this week emphatically denied that his candidacy has anything to do with his membership in the Randall County Taxpayers League.

Albers is one of three members of the league who are candidates for the school board. The league was organized primarily to protest raises in school taxes.

"My candidacy for the board has nothing to do with my membership in the Taxpayers League," declared Albers. "I want good schools. I should. I have eight children."

Other league members running for the school board are Fletcher Sims and Marshall Rockwell.

Other school board candidates are J. O. Parker, incumbent, Richard Pruett and Harold Irwin.

Albers said he felt that an Amarillo newspaper had inferred that he and the other league members ran for school board with ulterior motives.

leadership," Clark declared. That leadership usually requires participation by the Chamber of Commerce and the city government.

"A lot of decisions have to be made by city hall," he stated.

He stressed that a community seeking industry should have all the facts about the community at fingertip. He pointed out that the industrialists who make location decisions are busy men.

He said community information (See SEMINAR, Page 10)

Air Procedures For City Taxing

BY WAYNE BOARD

City Commissioners agreed Monday to waive a Texas Revised Civil Statute that would permit them to levy a tax on the First National Bank's undivided profits.

"I question the advisability of singling out one industry and leaving it off the others," said Mayor Paul Lindsey. "This would hurt Canyon."

The taxation question came

after City Tax Assessor-Collector Allen Ratliff sent the bank a personal property tax statement for 1966 in the amount of \$6,105.10 based on the firm's capital structure.

In a letter to the commission, bank officials pointed out that the additional taxation took place without reevaluation and that the Equalization Board was not in session. They had originally been taxed \$818.70.

City Manager Gary Gwyn explained the taxation on a bank's capital structure was standard practice in Amarillo, Tulsa, Hereford, and other surrounding cities.

"We were doing what the law says and what is the practice in the area," Gwyn stated.

"It is customary for assessors to arrive at the value of (See AIR, Page 10)

Burglars Hit Canyon Bowl

Burglars took some \$300 in cash and did an estimated \$200 damages in a break-in Tuesday night at Canyon Bowl just south of the city.

Manager Hal Brown said the thugs cracked a front window but finally gained entry by jimmying a back door.

Papers were strewn over the floor of Brown's office. The crooks even helped themselves to food in a refrigerator. Bread was scattered over the counter of the cafe portion.

Randall County Sheriff's Department is investigating.

Widened Streets Discussed

The widening of 5th Ave. from 16th to 23rd Streets and 3rd Ave. from 14th to 23rd Streets was approved Monday as a program of work by the Community Development Committee of the Chamber of Commerce.

The committee, headed by A. L. Crossland, will submit its proposals to the Chamber at a later date for consideration.

If approval is given by the Chamber, the recommendations will be submitted to the City Commission at a joint meeting of the two groups.

Other items approved on the program of work include:

1. Remove approximately 14 trees on the east, north and west sides of the Randall County Courthouse to make room for some 56 additional parking spaces.

2. Work to upgrade the present city zoning ordinance.

3. Support a program of annexation north from the present city limits of Canyon.

4. Study the possibility of (See WIDENED, Page 10)

Campus Building Plans Discussed

West Texas State University is projected to build \$4,500,000 worth of additional buildings on campus by the fall of 1969.

The university's long-range planning committee Monday morning unanimously agreed to recommend to the board of regents plans to build a Physical Activities Building on the WT campus.

Plans already approved by the board of regents call for construction of two high rise dormitories -- one for women and one for men -- and the building of an addition to the East Dining Hall.

Dr. James P. Cornette, WT president, told the committee that the Physical Activities Building will provide a large building for physical activities. It will also accommodate intramural activities directed by the Physical Education Department.

The building will be paid for from a student building use fee and from income derived from tuition sources. The building will have 120,000 square feet of floor space and (See CAMPUS, Page 10)

Judy Rae In School

Judy Rae Anderson, 17 years old, started to Canyon Junior High School Monday after emerging victor in litigation with the school board.

Judy Rae was denied admission into Canyon Junior High in January under an old policy which bans newlyweds for one full semester after marriage. She was married to James Anderson, West Texas State University student, in late December.

A district court ruling concurred with the board but the trial court decision was overturned by an appeals court. The board voted not to pursue the matter further and to allow Judy Rae to enter school.

Judy Rae said she tried to enter school last Thursday but was not allowed to do so until she produced a mandate from the appeals court Monday.

She said she presented the mandate to CJHS Principal Easton Wall.

"I guess this means you get to start to school," she quoted him as saying.

Judy Rae said she is enjoying her first week of school.

"I have a lot to make up," she declared.

STATE DEGREE winner, Miss Linda Taylor, checks the critique sheet from judges on her manual which has been selected for the highest award offered in the Future Homemakers of America. Miss Taylor is president of the Canyon High School FHA chapter and will receive the award at the upcoming state convention of FHA members in Dallas.

Easter Holidays

Vacation time for students at both West Texas State University and the Canyon Public Schools began Wednesday afternoon at the close of classes.

Easter vacation period will end when classes resume the regular schedule on Tuesday at all schools of the district.

Officials of the City Hall, Randall County Courthouse and Canyon Post Office will maintain regular office hours during the holiday.

Miss Taylor Gets State FHA Award

The state degree of the Future Homemakers of America has been awarded to Linda Taylor, daughter of Mr. and Mrs. Lawrence W. Taylor of Canyon.

Miss Taylor, a senior at Canyon High School, was presented with a certificate of the state award recently at an Area I FHA meeting in Lubbock. She will be presented with the top FHA award at the state convention to be held in late April in Dallas.

License Tags Are Available

The Randall County Tax Assessor-Collector's office will be open Saturday from 8 a.m. until 1 p.m. for those wishing to purchase license plates for their vehicles.

The offices are in the Randall County Courthouse and in the South Amarillo Annex at 3806 Bowie.

Deadline for purchasing the plates is 5 p.m. March 31, said Bill Money, assessor-collector.

Justice of the Peace Bill Wilson said April 15 is deadline for obtaining inspection stickers for vehicles.

Trail Rides Get Joint COC Push

A joint project to promote trail rides in Palo Duro Canyon State Park has been instigated by the Canyon and Amarillo Chambers of Commerce.

The action, decided at a meeting of the two groups Monday, would organize plans for short, one-half day, and overnight trail rides in the park.

Two committees to study the situation were also appointed. O. P. Cowart will be a member of the Committee on Organization and Chamber Manager Roland Black, R. B. Allen and

Blain Hufnagle will be on a Trail Ride Locations group. Allen and Hufnagle are representing the Randall County Sheriff's Possee.

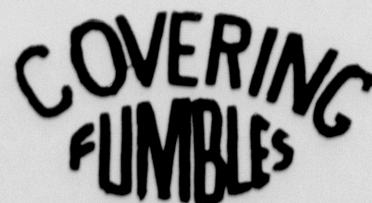

The Tourist Development Committee of the COC proposed the program.

In other business of the committee, the group decided to aid County Agent John Brazzil, Harry Rucker of the Soil Conservation Service, and Don Lloyd of the ASCS office, to conduct a survey for the United States Department of Agriculture.

The survey, Black said, will be to furnish information on 12 proposed recreation sites in Randall County.

Those sites to be studied include vacation cabins, cottages and homesites, camping grounds, picnic and field sports areas, fishing waters, golf courses, hunting areas, natural, scenic and historic areas, riding stables, shooting preserves, vacation farms and ranches, water sports areas and winter sports areas.

When the USDA survey is complete, information will be compiled into a brochure.

Spellers Get Ready

The annual Randall County spelling bee will be conducted at the Canyon Junior High School auditorium on Friday, March 31, at 4 p.m.

Open to the public, the county bee will have four competitors from each school of the county. The various schools are currently conducting school elimination bees.

Students from Umbarger School and Canyon Junior High School will compete in the senior division.

The junior bee will include students from Gene Howe Elementary and Rex Reeves Elementary.

Winners from each division will be advanced to the regional bee to be held in Amarillo April 22.

FROM THE
CANYON RIM
By Troy Martin

Tommy Thompson, editor of The Amarillo Globe-Times, wears his antipathy toward Canyon and Randall County like a hair shirt.

It has been prickling him for at least eight years.

Randall County wants to become a separate judicial district with a court seated in Canyon. Disregarding the welfare of the people involved, Tommy says, "Never."

Tommy supports the Amarillo Bar Association efforts to get another district judge seated in Amarillo. He proposes dual jurisdiction in both Potter and Randall Counties.

Two or three judges with dual jurisdiction in both Potter and Randall Counties would be confusing and chaotic. Tommy knows this but he's siding with the Amarillo Bar Association anyway.

Tommy and the bar association both know that a court seated in Canyon would be more convenient for the people of the county. Even under the dual jurisdiction plan, the people of South Amarillo would have to come to the Randall County courthouse in Canyon to transact courthouse business.

The dual jurisdiction plan would be handy for a handful of Amarillo attorneys practicing in both Randall and Potter Counties.

Until 1961 Tommy directed most of his wrath toward Canyon. In 1961, after Tommy and State Representative Tom James were, ineffect, censured by a Randall County grand jury for using their positions to harass a Randall County official, Tommy has had a mad on for the whole county. Most of the members of that grand jury came from South Amarillo so if Tommy can block a separate judge for Randall County he will have had some measure of vengeance.

Tommy wanted a county judge who is a lawyer. Judge Lloyd King is an attorney and lives in South Amarillo. This gives South Amarillo a clear cut majority on Randall County commissioners' court.

You'd think this would satisfy the scribe at Ninth and Harrison. But has it? You'd better not believe it! Tommy had verbal canipions when Judge King cast a tie-breaking vote to put the court on record as approving a separate judicial district for Randall County.

A proposal to tax some \$477,584 of undivided profits of Canyon First National Bank has created a stir at city hall. These profits are an accumulation of the bank's undivided profits over the bank's history.

I talked to an attorney after the Monday night meeting of the city commission at which the matter was discussed. He was of the opinion that if the undivided profits of a bank may be taxed by a political subdivision then all bank accounts and cash on hand may also be taxed.

It seems only fair to me that this should be the case. The undivided profits of a bank amounts to the bank's bank account.

If we are going to tax that bank account, then let's tax everyone's bank account. Personally, I'm against taxing either one.

While we're on taxes, I'd like to point out the fallacy of taxing real estate on its potential value.

For instance, a tract of land fairly close to a large city might have a vast potential value as home sites. Let a stock pen go in near it and the tract's value takes a nose dive.

Of course, the tax valuation can be lowered but what is the owner going to do about reimbursement for taxes he paid out on potential value in preceding years?

Ad valorem tax is an unjust tax anyway.

Thornton Dewey who used to live here is mining gold in Old Mexico and New Mexico.

Thornton said some of the ore is panning out two or three ounces a ton. He said one gold mine is located in the wilds of Old Mexico.

He sends the ore out to be refined because he's afraid of the "banditos."

Awards 3 Eagle Scouts

BY LORENA MILLER

Three Eagle Scout Awards were made Monday night at Court of Honor ceremonies for Boy Scout Troop 66 at the First Christian Church of Canyon.

Those receiving the highest honor given in scout work were Jamie Martin, Gene V. Morrison and Stephen Daugherty.

"Eagle award recipients must be the kind of fellows that people look up to, for they are held as an example of good citizenship and character," commented Bill Walker as he made the presentation of the Eagle award to Jamie Martin, son of Mr. and Mrs. Troy Martin.

Martin has been in the scouting program for three years during which time he has advanced from tenderfoot to Eagle rank. He has served his troop as patrol scribe, assistant patrol leader and patrol leader of the Falcon Patrol. Martin has also served as a den chief for the Cub Scouting program. His camp record has included overnight camps, trips to Possum Kingdom and Summer camping. He has also participated in three district camporees, troop camporees and ski trips.

A member of the Student Council at Canyon Junior High School, Martin is active in all phases of school work. He was named "student of the month" by the Student Council recently, placed first in the Junior High Science Fair, and received a first division in the University Interscholastic League solo and ensemble contest for band students last week end.

Dr. W. J. Wooten was in charge of presenting the Eagle award to Gene V. Morrison, son of Mr. and Mrs. G. W. Morrison. Morrison has participated in scouts since the Cub Scout level. In March 1964, he came into Troop 66 and that same year was advanced from tenderfoot to first class. During 1965, Morrison received both the star and life awards. This year he has been working on the God and Country award.

Morrison has served his troop as patrol scribe, patrol leader and troop scribe. He also works as a den chief with the Cub Scouts. His camping record has included approximately 60 days of total camping experience. Morrison is active in church and school choirs and currently serves as sports editor and assistant editor for the school annual. He also plays Little League baseball during the summer months.

CROWN OF THORNS which was brought to Texas from the Holy Land has been in blossom year around at the K. E. Hines home. It has red blossoms. The unusual house plant grows to the size of trees in south Texas and in the Holy Land, according to Mrs. Hines. It is covered with thorns, small leaves and terminated with floral sprays at the end of branches. The plant represents the crown of thorns used in the crucifixion, according to Mrs. Hines. Posing with the plant are Jill Patton, left, and Kimi King.

CHS Choirs Rate First Division

Two first divisions in concert were given to the boys and girls choirs from Canyon High School at the Region I choir contests held at West Texas State University last week end.

The mixed choir of Canyon High School received a Division II rating at the contest and all three choirs received division II ratings on the sightreading segment of the contest.

This was the first year for the boys and girls choirs to enter the contest, according to Miss Linda Adams, director. Canyon Junior High School choirs were not entered in the competition which included about 60 high school choirs and 40 junior high choirs.

The boys choir sang "Viva Tutti", "Streets of Laredo" and "We Fight Not For Glory" from the Testament of Freedom.

Girls choir selections included "Alleluia" and "Dawn" by Dr. Houston Bright and "The Snow".

Choir accompanists were Susan Brantley and Mrs. Royal

Brantley, violin; June Johnson, Linda Markham and Mary Ann Wheelock, piano.

Contest judges, Darrell Johnson of Hastings College Nebraska, Al Skoog of Arkansas State College and Howard Skinner of Colorado State College, gave high praise in their judging of the boys and girls choirs from Canyon, according to Miss Adams.

Urban . . .

(Continued from Page 1) Bryan said he felt there were three things the groups could do.

"We can act on the request, amend the present ordinance, or write a new ordinance," Dr. Bryan commented.

The question of rezoning along 2nd Avenue drew angry protests from property owners in the area last fall.

The Zoning Commission had recommended that a large portion of the property along 2nd Avenue be rezoned from residential to commercial.

Springer later came to Canyon, studied the proposals made and said he was not in favor of rezoning such a large area.

In a letter dated Aug. 10, 1966 to the City Commission, Springer, in part, stated:

"Retail zoning around Central Canyon extends northward to Second Avenue and Industrial zoning starts at the Santa Fe Tracks, thereby leaving the area in question as a relatively thin strip of Dwelling classification between the Retail and Industrial zones."

"Substantial unused Industrial zoning exists on the north side of the Santa Fe Tracks along U. S. Highway 60's frontage, which is far more desirable for industrial or commercial use than the area under consideration."

"It is suggested that a reasonable zoning solution, within the framework of your present zoning ordinance, would be to zone the lots adjacent to 15th Street -- commercial -- from Second Avenue to the tracks and leave the rest of the area in the dwelling classification."

Ryan . . .

(Continued from Page 1) There is an undisclosed amount of cash in the bank.

Ryan declared that shareholders may even receive more than 100 percent on their shares if a high percentage of credit union loans and interest are collected.

In the meantime, a number of shareholders have been asking for their money.

"As much as we would like to give them their share holdings, legally we cannot do it," Ryan declared. "We hope the people do not become alarmed. They should know we are going to do everything we can to liquidate this as soon as possible."

Shares held in the credit union range from \$5 to more than \$20,000.

In spite of his optimism, Ryan said he is not in a position to say whether shareholders will receive all their money back but emphasized that there is a good possibility that this will be the case.

Ryan said the liquidation will require a long time but said he is unable to say just how long.

He said loans and other legal obligations of the credit union will be paid off first and then payment of the shareholders can begin.

Canyon Credit Union was placed in liquidation as of March 11 by the state banking commissioner. Its offices are open only for collection of loans. No more share payments will be received or dispersed.

"It will remain that way until all loans are collected or disposed of in some manner," said Ryan.

Gibson said the Canyon Credit Union had borrowed extensively from other credit unions. "They must be repaid before shareholders," he declared.

"Canyon Credit Union has some sizeable loans," he went on. "There will be an effort to transfer these to banks and other lending organizations."

Gibson said Canyon Credit Union board of directors decided March 10 to go into liquidation.

Members of the credit union board include Keith Jones, president; Riley Troth, vice president; Jack Jones, treasurer; and Ocie Chism, A. L. Crossland, R. E. "Barney" Barnard, Raymond Raillard, Dan Tarpley and George Dowlen.

Wayne Hilton, credit union manager, resigned in October.

bank shares by adding the capital stock, the surplus and the undivided profits, plus any reserves that are not actually expense reserves and which are shown under the heading 'Capital Accounts' on the bank's financial statement," Gwyn said in a report to the commission.

"I think you should have come to us first to get our feelings on this," Lindsey told Gwyn. "In our opinion," Gwyn's report continues, "there is no question of the legality of the city assessment and taxation of the First National Bank stock."

Since 1961, and including 1966, the city has failed to collect \$29,043.49 based on this form of taxation.

"The city could by law assess the bank for two years," the city manager's report went on.

"However, our position has been only to issue a current tax statement in the amount of \$6,106.15. This amount reflects only that balance due the city by virtue of equal taxation law."

The commission agreed in the future to tax bank capital stock and surplus, but not undivided profits.

City dads also agreed to establish an ordinance to set policy on future bank taxation questions.

In other business, the West Texas State Bank of Canyon received the bid to become the city's depository for the period from April 1, 1967 to March 31, 1969.

On certificates of deposit, the bank agreed to pay 3.25 percent from 31 to 90 days; 3.5 percent from 91 to 180 days; and 3.75 percent from 181 or more days.

The bank also agreed to charge the city 5.5 percent per year interest on any money borrowed.

Commissioners considered the request of an additional \$865 to be added to city's portion of a planning grant request to the Department of Housing and Urban Development.

Springer and Associates, urban planning consultants of Dallas, proposed the \$800-plus figure from the city and also \$1,045 to be added to the Federal government's portion of the grant.

No action was taken by the commission until it can determine the reason for the increase in costs.

Corporation Court Judge Burney Slack was given an increase in salary of \$50 per month. His salary had been \$250 per month.

Gwyn presented figures showing each day Slack is seeing about 13 people, receiving about two fines paid by mail and mailing two receipts.

City Clerk Johnny Janak can take payment of fines, Gwyn said, if the person who receives the citation pleads guilty.

Mayor Lindsey questioned the advisability of leaving a receptionist in the annex alone when Slack and Janak are away.

An ordinance closing a portion of 1st Avenue between 16th and 17th Streets was approved.

The area to be closed is adjacent the Junior Livestock Building. Randall County Commissioners had requested the move which would allow them to construct additional facilities at the building site.

tion should be at hand for a quick presentation.

He said sites at competitive prices and information on industrial financing should be available to the prospective industry.

Clark declared that Canyon has some of the best industrial sites in the state. He noted that a great deal of property near Canyon has highway on the front and railroad at its back.

Jim Kelly spoke on research and analysis and education as a factor in plant location. Kelly is assistant executive director of Texas Industrial Commission.

Kelly said expansion of present industry is more important than finding new industry. He recommended a professional inventory of industry-enticing assets be made in Canyon by a Texas A & M team.

Randall Keeling, TIC labor analyst spoke on evaluating labor market. Hollis Lunsford, TIC, also was on the program.

The Canyon group met with an assistant of Governor John Connally shortly before noon. Don R. Raburn, industrial consultant for TIC, spoke on improving the appearance of the Canyon business district as the afternoon session began.

Robert L. Watson and Deolee Parmelee, representatives of the Texas Historical Society, made talks on the importance of historical markers to the tourist trade.

Jim Heath of TIC spoke on evaluating, securing and presenting industrial sites and then Don Raburn spoke on industrial financing. Heath also talked on community promotion programs.

Clark wound up the seminar with a talk on finding industrial prospects and using the TIC mailing system.

A group from TIC will schedule a seminar here in Canyon some time later this year.

Manly Bryden, Bill Davis, Joe Gidden, Pete Cowart, Joe Cox, Gene McGlasson, Roland Black, Dean House, Charles Allen, Troy Martin, JoZach Byrd, Bill Sternberg, R. E. "Barney" Barnard and Dr. Burwell Southern.

CHS Baseballers Are Defeated

Canyon High School opened its home baseball schedule last weekend by absorbing two defeats.

Pampa blasted the Eagles 16-4 Friday afternoon at Babe Ruth Park, and Plainview followed suit Saturday with a 5-2 win.

The Harvesters set the stage for things to come by blasting the first pitch of the game well over the center field fence at the 300-foot mark. The Harvesters batted at will and led 5-0 after one inning, 11-0 after two, and 15-0 after three.

After the third, Pampa inserted a whole new lineup with the exception of the pitcher, and only then did Canyon get on the scoreboard.

Eagle catcher Yogi Rossi led off the bottom of the fourth with a towering home run down the left field line, and moments later centerfielder Joe Moore swatted a round-tripper that also drove in third-sacker Don Howard, who had bounced a ground rules double over the left field fence.

Canyon added a run in the bottom of the fifth before the game

was called on a rule that ends a game a team is 10 or more runs ahead after five frames.

The Eagles fared much better against Plainview Saturday, although losing 5-2.

Canyon jumped into a 1-0 lead in the second inning when Rossi drew a walk, took second on a single by Stan Hicks, moved to third as Dwayne Gerber grounded out, and then scored when Moore grounded out.

Max Sunderman fired a six-hitter at the Bulldogs, but lost it all in the top of the third when he surrendered a grand slam home run to Plainview centerfielder Ron Roberts.

Canyon closed to within 4-2 in the fifth when Sunderman tallied after getting on with a walk, but the Dogs added a run in the sixth to close out the scoring.

Plainview's Tommy Baker held the Eagles to four hits while striking out five.

Train Repairs

CHS Sportsters Have Bad Week

Canyon High School's spring sports program suffered a disastrous week with poor showings in tennis, track, and golf.

In the Spearman Invitational Tennis Tournament, Canyon failed to place anyone past the quarterfinals as only one netter got past the first round. Both boys and girls represented Canyon in the tourney.

At the Levee Chamber of Commerce Relays, CHS miler Pat Williams scored the first--and so far the only--Canyon track point of the year. Williams took a sixth place in the mile run with a 4:58 timing.

Just missing places in the 880 were Lon Conner and Luis

Bulldogs Nip CHS

The Plainview Bulldogs outscored the Canyon Eagles 9-1 in Plainview Tuesday afternoon, as the Eagles hurt their own cause by committing seven errors.

Canyon twice loaded the bases, but could only push across one run. The Eagles filled the bases in the second inning with no outs, but picked up only a single run when catcher Yogi Rossi was walked in.

Rossi's run made the score 3-1 at that point.

Canyon stumbled in the fourth, however, committing four errors, and from that point had difficulty in closing the door on the Bulldog offense.

Tommy Brandt went most of the way for Coach Wayne Turley before receiving last inning assistance from Max Sunderman. Brandt was charged with the loss, but according to Turley, “Tommy pitched a real fine game, but he didn't have any fielding support.”

The Eagles are 0-4 for the season.

Buff Gridders Look Good In Scrimmages

BY JON LOW

In an awesome display of power, West Texas State football prospects took another giant step toward this fall's grid campaign that could exceed last year's 7-3 record.

The Red team, the first offensive and defensive units, blasted a gritty White team 99-9 in a game-type scrimmage at Demon Stadium in Dumas Saturday night in the Buffs' second scrimmage of the spring.

The Red team was sparked by the brilliant performances of Duane Thomas, Don Tardy, and Dave Szymakowski, as well as a host of others. Thomas roared for a 98-yard score the first time he got his hands on the ball and did not let up the rest of the night. Although he saw little action in the second half, Thomas ripped off 243 yards on 10 carries for a staggering 24.3 yard average.

Szymakowski was at his usual thrilling best. The acrobatic split end speared nine passes for 152 steps and a touchdown while averaging 16.9 yards a catch.

Tardy triggered a brutal defensive team that gave up only 58 yards on the ground and 165 in the air, as he intercepted four passes. He expressed one of his thefts 26 yards for a touchdown.

While Tardy was staging air raids, there was plenty of head-knocking going on up front as Jimmy Campbell, Dave Whitmire, Jesse Powell, Larry Fowles, and Carl Heilman put in a savage defensive show that produced seven of the Reds' 14 touchdowns.

Eugene Morris, WT's leading scorer last year, paced the scoring of the night with four tallies as he racked up 168 yards in seven trips for an even 24-yard average. Morris cruised for scores of three, seven, and

81 yards on the ground, and took a 24-yard pass from quarterback Paul Waite for another touchdown.

Although thoroughly outclassed, the White unit refused to roll over and play dead. Two courageous performances were turned in by freshman passers Frank Bettencourt and Jim Wheeler in the face of the blood-thirsty rush of the Red team. Bettencourt shouldered most of the load in the first half, continuing until intermission although receiving a rib injury as he was battered about by the first team defense.

Wheeler, a freshman from Amarillo Caprock on a try-out basis, took over for the second half and hit six of 18 throws for 102 yards, including an 83-yarder to Dick Flynn for the Whites' only touchdown.

Other standouts were quarterback Roy Winters, who completed 10 of 20 passes for 161 yards and two scores; hard-blocking tackle Larry Brazon; safety Rick Barrett, who returned an interception 52 yards of a touchdown; and placekicker Donie Pruitt, who kicked five extra points and a 31-yard field goal.

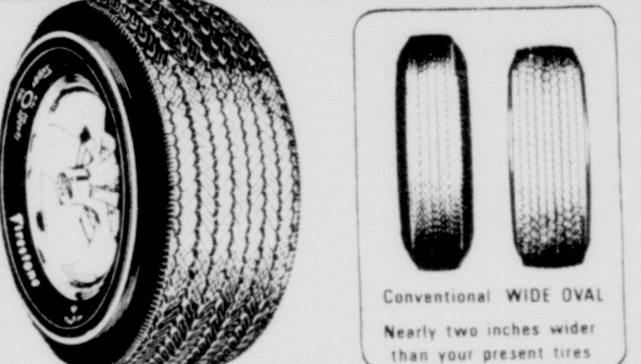

In statistic totals, the Reds moved for 554 yards on the ground and ran up 244 yards in the air for a total of 798 yards, 28 more than their total in last week's first scrimmage.

The next scrimmage will be April 1 at the Wayland Bowl in Plainview at 7:30 p.m.
